*From 2015, data for all state high schools include Year 7 students. Prior to 2015, only state high schools offering Year 7 had these students included in their counts.

In 2015, there were no students enrolled in a Pre-Prep program.*

*Pre-Prep is a kindergarten program for Aboriginal and Torres Strait Islander children, living across 35 Aboriginal and Torres Strait Islander communities, in the year before school (<http://deta.qld.gov.au/earlychildhood/families/pre-prep-indigenous.html>).

Characteristics of the student body:

Mango Hill SS is situated in a new estate at the northern end of the Pine Rivers (north of Brisbane). Homes in the area are a mix of owner-occupied and rental properties. Accommodation in the area is in high demand from families with school age children as the school is enrolment managed and currently experiences a growing reputation.

The majority of students come from Anglo-Australian families; many have migrated to the area from interstate or from England. There is a small number of students from other nations. Approximately 10% of students identify English as an Additional Dialect. Two percent of students identify as Aboriginal or Torres Strait Islander.

Mango Hill State School caters for students with a range of learning needs, including those with verified disabilities through integrated classroom learning programs, students with learning difficulties and gifted and talented students. There were 27 classes for students from Prep to Year 6 in 2015. Classes consisted of mostly single grade classes.

The parents of our students are actively and positively involved in their children's education. Many families have both parents working in either full-time or part-time work, and a number of parents run small businesses from home or in the local business areas.

Parents have high aspirations for their children and this assists the school in establishing and maintaining high expectations in learning and social outcomes.

**From 2015, Exclusion represents principal decisions to exclude rather than recommendations for exclusion. From 2015 where a principal decided not to exclude, a small number of recommendations for exclusions have been counted as a long suspension. Mango Hill State School seeks to educate and engage students in real time – utilising the rapidly developing and changing world of technology. The school actively promotes, engages with and utilises ICT opportunities within the whole school structure. ICT use in each classroom and administration at MHSS is purposeful, engaging and intrinsically linked to curriculum, best practice teaching, learning and positive student outcomes.

In 2015 Mango Hill State School was focussed on engaging, effective and flexible learning spaces for students with all classrooms having access to mobile laptop devices, interactive whiteboards and digi-packs. Idevice kits were used in the senior years. Teachers enabled learners through the use of eSpaces to access virtual environments. All classrooms established an edStudio that promoted teachers and learners to collaborate anywhere and to house homework communication, resources, activities and links. Subscriptions via the student resources scheme to Mathletics, Reading Eggs, Bug Club and Accelerated Reader further extended student opportunity to work digitally.

Extension programs offered students extra opportunities to engage with ICT through the elective robotics club, animations, claymation and web conferencing.

In 2015 all students from Year 1-6 were invited to participate in the 1:1 device program named ePAL (Electronic, Portable, Anytime Learning). This program was successful in engaging and educating students with approximately 75% of students involved in the program.

Reducing the school's environmental footprint

Mango Hill State School uses environmentally friendly building designs aimed to maximise airflow and reduce heat within the learning areas. Many common areas have light harvesting and other areas have lights which are switched on and off by motion sensors. Some buildings host solar panels which generate power for school use. The school harvests water from roof surfaces and this is directed into water tanks. This water is then supplied to the amenities. Mango Hill ensures water usage for the garden areas is minimised with all areas well mulched. Stormwater runoff provides adequate water for existing plants also filtering water that enters the retention basin.

Description of how non-attendance is managed by the school

Non-attendance is managed in state schools in line with the DET procedures, *Managing Student Absences and Enforcing Enrolment and Attendance at State Schools* and *Roll Marking in State Schools*, which outline processes for managing and recording student attendance and absenteeism.

At Mango Hill State School attendance is considered to be of great importance. We regularly circulate the message that if children are not at school we can't teach them. The research behind attendance and achievement is discussed and shared with parents and we encourage parents to ensure their children are at school every day of the school year. We also monitor lateness and early leavers as these account for large numbers of interruptions to learning every day.

The class roll is marked shortly after the first bell in the mornings. If parents arrive after this bell they must sign their children in at the office and collect a late slip to present to the class teacher. The roll is marked again after lunch and all absences are recorded centrally. A text message is sent to parents of students with unexplained absence between 9.30-10am.

Parents are encouraged to ring the school in the morning of an absence using the Student Absence Hotline.

Absences of three days or more without an explanation are investigated. Absence is recorded on student's reports at the end of each semester.
